- 5. Press the θ power button to turn on the printer. The print head moves to the ink cartridge installation position.
- 6. Follow the instruction below to select your printer: Double-click Macintosh HD. → Double-click the Application folder. → Double-click the Utilities folder. \rightarrow Double-click the Printer Center icon. \rightarrow Click Add. \rightarrow Select EPSON USB. \rightarrow Select your printer. \rightarrow Click Add.

(excluding the U.S.) failure to strictly comply with SEIKO EPSON CORPORATION's operating and maintenance instructions.

Installing the Ink Cartridges

1. Remove the new ink cartridges from their protective bag

Caution:

- ☐ Be careful not to break the
- hook on the side of the cartridge when you remove it from the protective
- ☐ Do not shake the ink cartridge after removing from the bag; this can cause leakage.
- ☐ Do not remove or tear the label on the cartridge; this can cause leakage. ☐ Do not touch the green IC chip on the side of the cartridge.
- Doing so may prevent normal operation and printing. 2. Lower the output tray, then open the printer cover.

Do not move the print head by hand, as this may damage the printer.

3. Place the ink cartridges vertically into the cartridge holders. Without applying excessive force, push the ink cartridges down until they click into place.

installed properly.

- 5. Press the $\ensuremath{\lozenge}$ ink button. The printer moves the print head and begins charging the ink delivery system. This process takes about one and half minutes. While charging, the O power light flashes and the printer produces a variety of mechanical sounds. This is normal.

Caution:

Do not turn the power off during the ink charging process.

☐ Do not load paper until ink charging is complete.

- ☐ If the ink end error occurs after the print head moves to its home position, the ink cartridge may not be installed properly. Press the δ ink button again, and reinstall the ink cartridge until it clicks into place.
- ☐ The ink cartridges packaged with your printer are partly used during initial setup. In order to produce high quality printouts, the print head in your printer will be fully charged with ink. This one-off process consumes a quantity of ink and subsequent cartridge sets will last for their full rated life.
- 6. When the ink charging process is finished, the ${\tt O}$ power light stops flashing and remains on.

For best results, shake the ink cartridge four

or five times before opening the package

Use the following table of light patterns to diagnose the problem, and then follow the recommended corrective measures.

Paper out No paper is loaded in the printer. oad paper in the sheet feeder, and then press the 🛍 paper button. The printer esumes printing and the light goes out. Paper has jammed in the printer Paper jam ress the ${\it a}$ finite paper button to eject the jammed paper. If the error does not clear, open the printer cover and remove all of the paper inside, including any torn pieces. Then, reload the paper in the sheet feeder and press the depaper button to resume Ink low The ink cartridge is nearly empty. Obtain a replacement black (T0321), cyan (T0422), magenta (T0423), or yellow (T0424) ink cartridge. To determine which cartridge is nearly empty, check the ink level using EPSON Status Monitor 3 (Windows) or EPSON StatusMonitor (Macintosh). ♠ Ink out The ink cartridge is empty or not installed. Replace the black (T0321), cyan (T0422), magenta (T0423), or yellow (T0424) ink cartridge with a new one. The currently installed ink cartridge cannot be used by this Wrong cartridge Use the appropriate black (T0321), cyan (T0422), magenta (T0423), or yellow (T0424) ink cartridge. **Incorrectly installed ink** The ink cartridge is not installed correctly cartridge If the print head is at the home position, press the \Diamond ink button to move the print head to the ink cartridge replacement position. Remove and reinsert the ink cartridge. Then continue with ink cartridge installation If the print head is at the ink cartridge replacement position, remove and reinsert the ink cartridge. Then continue with ink cartridge installation. The print head carriage is obstructed by jammed paper or other foreign material and cannot return to the home urn off the printer. Open the printer cover and remove any paper or other obstructions from the paper path by hand. Then, turn the printer back on. f the error does not clear, contact your dealer (1) Unknown printer error An unknown printer error has occurred. urn off the printer and contact your dealer \bullet = on, \circ = off, \bullet \bullet = flashing

Safety Instructions

Read all of the instructions in this section when setting up and using your printer.

When choosing a place for the printer Avoid places subject to rapid changes in temperature and humidity. Also, keep the printer away

- from direct sunlight, strong light, or heat sources.
- Avoid places subject to dust, shocks, and vibrations.
- Leave enough room around the printer to allow for sufficient ventilation.

the wall. The printer will not operate properly if it is tilted at an angle

- Place the printer near a wall outlet where the plug can be easily unplugged. Place the printer on a flat, stable surface that extends beyond the printer base in all directions. If you place the printer by the wall, leave more than 10 cm between the back of the printer and
- When storing or transporting the printer, do not tilt it, put it vertically or turn it upside down; otherwise, ink may leak from the cartridge.

When choosing a power source

- Use only the type of power source indicated on the printer's label.
- Be sure your AC power cord meets the relevant local safety standard. ☐ Do not use a damaged or frayed power cord.
- If you use an extension cord with the printer, make sure that the total ampere rating of the devices plugged into the extension cord does not exceed the cord's ampere rating. Also, make sure that the total ampere rating of all devices plugged into the wall outlet does not exceed the wall outlet's ampere rating.
- ulf you plan to use the printer in Germany, the building installation must be protected by a 10 or 16 amp circuit breaker to provide adequate short-circuit protection and over-current protection for this printer.

When handling ink cartridges

- Do not open the ink cartridge packages until just before you install them. Before installing the new ink cartridge, shake it four or five times before opening its package.
- Do not shake the ink cartridges after removing from the bag; this can cause leakage.
- Be careful not to break the hooks on the side of the ink cartridge when you remove it from the package.
- handle the cartridges. Be careful when you handle used ink cartridges, as there may be some ink remaining around the ink supply port. If ink gets on your skin, wash the area thoroughly with soap and water. If ink gets into your eyes, flush them immediately with water. If discomfort or vision problems remain after a

Keep ink cartridges out of the reach of children. Do not allow children to drink from or otherwise

thorough flushing, see a doctor immediately. Do not touch the green IC chip that is located on the side of the cartridge.

- Do not remove or tear the label on the cartridge; this can cause leakage. ☐ Store each ink cartridge so that the bottom of its packaging faces down.
- When using the printer
- Do not put your hand inside the printer or touch the ink cartridges during printing.
- Do not block or cover the openings on the printer.
- Do not attempt to service the printer vourself. Unplug the printer and refer servicing to qualified service personnel under the following conditions: The power cord or plug is damaged; liquid has entered the printer; the printer has been dropped
- performance. Do not insert objects into the slots on the printer.
- ☐ Take care not to spill liquid on the printer Leave the ink cartridges installed. Removing the cartridges can dehydrate the printer head and may prevent the printer from printing.

or the cabinet damaged; the printer does not operate normally or exhibits a distinct change in
